I am Jamie Duffy, my date of birth is 07/11/1989. My home address is as stated above. I am making this witness statement in response to the police and local authority's application for an anti-social behaviour order on Mr Simon Cordell.

At this time I do not have a permanent address I am staying with the Cordell/Benjamin family who I have known for around 10 years.

I was working up until 13/01/2015 and at this time I am seeking new employment.

As I said I have know the Cordell/Benjamin family for many years and the help they have given me is beyond words they are part of my real family this is how I feel and I know they feel the same way, there was so many times I did not have somewhere to stay and they always opened there doors and welcomed me from a young age.

Since Tyrone Benjamin accident on the 10/04/2014 I have been staying there to help care for him as he could not do many things himself.

I have also been staying at Simon Cordell address a lot, due to how he has been feeling so he has someone to talk to, as he has locked himself away a great deal over the last few years due to things that been going on in his life.

On the 06/06/2014 I was at Lorraine Cordell Home with other family members, Lorraine's Nan was not well and was most of the day in bed sleeping. Simon and his Mum were working on his website for many hours this day and other things he was doing to set his company up. It was really late when we all left Simon dropped Deon home to her house and then me and Simon went home to his house, where we stayed up talking for a while and then went to sleep.

On the 07/06/2014 a family member Dwayne Edwards was having a party due to him leaving to travel the world for 12 months the party was held in a hall at the end of Hounsfield Road in Edmonton N9 by the park. Most of the family attended and friends.

Simon's Nan and Lorraine left early due to Simon Nan not being well.

The party went in to the 08/06/2014 early hours, Simon left sometime in the early hours I am not sure what time it was I new this as he said bye to everyone.

I stayed at the party till later to enjoy myself.

I worked within this field for many years until I became too ill due to health Problems.

When my son was served the police application for an anti-social behaviour order, due to my knowledge I used this to search for information which could help prove he had not done what the police said he did and was not involved in the organisation and conduct of illegal raves.

The application gave me a base line in which to start to search and the dates the police said my son Mr Simon Cordell set up these illegal raves.

I used my knowledge I had within Search engine optimization and keywords to be able to use the internet, search engines and social media to bring up a great deal of data that allowed me to find out information to the dates the police said my son organisation and conducted illegal raves within this application.

I am going to explain how this was done with keywords and the internet search engines and my knowledge.

The 1st thing I did was open chrome and went to Google search engine, as this is the biggest search engine and the Google's spiders regularly crawl the web to rebuild there index's, Google spiders crawl process is algorithmic.

I then type in a keyword like illegal rave, UK, rave UK, it is better also to have your search tool selected in this case to Country: the UK, but it is still good to end the keyword with UK, then click search this will bring up all dates to start with.

Then I used the search tool to enter custom dates. I had the dates as they were in the application for the ASBO order.

Now we add the date time line we are looking for in the custom fields, you are better to start with a wider date line then you need and see the results and you can shorten the date line as needed from the results you get back.

It is better to start to look for News data and social media URLs as in the application the police submitted they said in a statement about social media.

Signed *[Signature]*

Witnessed By

..... *[Signature]*

You start to look at the results and read all is what is said there are 10 results per page and there can be a number of pages. To look for just news within your date line you can select the tab for news data. If you want to look at all then you will have more to look at as this is a much wider search. On each search field you get a description this can show missing words within the keywords you entered.

If you know an area or location of something you can add this to the search which will help with the results of your search.

A new keyword has been entered "illegal rave that was due to take place on the 6th June" I did not need to add 2014 in this keyword as it is in my custom date field still.

Any information I have given or will give in regards to this application has been found by ways of using my knowledge.

There are also many tools that I can use to help me in searching for information that is on the internet but for the information I have given or will give it has been done the way in which I have shown above.

Ravers took over abandoned business building for more than 15 hours.

The former MAN building in Crown Road, on the junction with Southbury Road, was the venue for an illegal party that began on Saturday night.

COME AND TALK TO THE COMMISSIONER

WHAT WOULD YOU ASK? We are inviting you to meet the Commissioner of the Metropolitan Police Service, Sir Bernard Hogan-Howe.

DATE: Wednesday 14th October 2015

TIME: 6.30pm – 7.30pm
(doors open at 6.00pm for refreshments)

LOCATION: Aylward Academy, Windmill Road, N18 1NB

TOTAL POLICING

According to residents in Anglesey Road, adjacent to crown road, the loud noise and disturbance continued until 3pm the next day.

One resident, who wanted to remain anonymous, said that the 15-hour rave was "ridiculously loud."

He said: "It was so loud the whole house was shaking like an earthquake was happening. There are no clubs or bars near us so this was quite a shock. We understand that

sometimes it could be loud late at night but for it to continue until 3pm the next day is not right.

"I walked along to check out what was going on, it was ridiculously loud. Things were getting smashed up in the building and people were spray painting everywhere."

Police say they attended late on Saturday evening and returned the following music was being played.

Kate Laird, also of Anglesey Road said: "We are furious that nothing was done at the time, I have children and we couldn't sleep all night."

"One of our neighbours saw police show up but did nothing about it. Our Easter Sunday was ruined by the selfishness of others."

Vandals have 'completely wrecked' an abandoned building by painting graffiti on the front and squatting inside.

The MAN building, in Crown Road, on the junction with Southbury Road, Enfield, has also been used for illegal raves and parties in the last few months.

Formerly used as a car factory, the Grade II listed building closed down more than a year ago and Enfield Borough Council is now looking for a new owner.

David Cockle, the chairman of the Enfield Society, has been left concerned by the way the building has fallen into disrepair.

He said: "It once had a very nice, manicured garden – but now it's just been completely wrecked. It's a huge shame.

"I recently discovered that squatters have been on site and it's generally in a deplorable state. It doesn't give a good impression to people visiting the area for the first time.

"It's such a high profile site and one we should be proud of, but now it just looks awful."

Earlier this year, people in nearby Angelsey Road, said their houses were "shaking like an earthquake was happening" after an illegal rave.

The party included loud music and continued until 3pm the next afternoon – a total of 15 hours.

Graffiti tags have now been emolazoned on the front of the building, which has been boarded up.

Mr Cockle, 62, added: "For a listed building to be left like that, it's terrible.

"The plants and shrubs are overgrown too – it's sad to see it so run down.

"It used to be such an attractive building."
