Dialogue's and more Dialogue's: --

— Well, were to start, that is the question now and a fair one I think at that.

A lot of people know that I have been off the so called seen for about three years or so now, as dated: — **25/06/2013** as the police came to my flat and arrested me and I then went to prison on remand because of this case, for now we will name that the Gazebo case and after a year of this case I got released for around 2 months and have since then been held under police and court conditions, that now as of to date amount to some form of an Asbo against my person and for those that don't know what I mean by of the scene "of the scene: of the scene is a short abbreviation, that does create a shortened definition for; "A person that does not get seen locally, by other person(s) in a towns or its surrounding area's "that is to imply."

It is now time for me to explain a short summary leading into the eight years of my life living in Burncroft Avenue, then continue with the next five years

(It's been about five years since **25/06/2013** when my problems started as the gazebo case and then run into the ASBO case, the ASBO case started on **12/09/2014** and this is when the police lied and said that they served me the 1st Asbo application / bundle, at my flat.

I will continue with this report in short detail for now and continue in finer detail in the official diary section of the report to show all the true details of relevance of the on goings of my situations at the present.
