

RECOMMENDATION

I met with Simon today on the ward and assessed him in preparation of the report. Simon recognised me immediately. He was warm, welcoming, polite and co-operative throughout the meeting. He stated about half a dozen times that he is willing to work with the services and also willing to accept medication.

It would be helpful if Simon will agree to stay in hospital to continue treatment as he appeared to have made good progress since admission. As part of the medical and nursing team I believe that Simon will benefit from staying in hospital for further assessment and continue treatment.
