Enfield HTT.

Home visit today.

No concerns.

Patient complained that the olanzapine was making him feel very tired.

He appeared mentally stable in spite of his talkativeness which I later understood was his normal self. He told me that professionals have misunderstood it as a symptom of a mental illness.

He was preoccupied with how he was treated during the MHA and false statements in various reports about him including police reports.

He has spent significant amount of time putting things in correct perspective with both papers and audio-visual evidences. He has an advocate and he also talking to his lawyers.

Plan:

Full entry to follow.

Arrange TOC.

?Reducing Olanzapine to 2.5mg after discussing with his care coordinator.
