 Mental state: Simon presented to be more stable in his mental state presentation last night. He was with co-patient in the TV lounge interacting and watching another programme on his Lap top. He was very pleasant to approach and appropriate in his interaction with staff. Appeared to have slept through the night.

Nutrition: No concern with food and fluid intake during the shift.

Medication: He has changed his mind as per plan from his ward review to start complying with his prescribed anti-psychotic medication. He took his both prescribed night medication last night without any further argumentation.
