**Subject:** RE: Concerns for male

Hi Giudi,

SC was seen and assessed at home on 19th June. He is not currently under a community team, the service has received several referrals since 2015 pertaining concern for his mental state, however upon assessment he's not been found to be so unwell that restrictive measures have to be taken to engage him. He often presents with grandiose/paranoid ideations involving past involvement with police, and more recently involvement with the housing department and neighbour(s).

He is currently involved with court proceedings involving his neighbour/housing department arising from on-going dispute in which he alleges neighbour to be deliberating causing him distress by making noise (he appears to be noise sensitive). Housing are exploring eviction proceedings in which information has recently been provided for court regarding his mental health needs. I understand he is representing himself in court and the court has questioned his mental capacity/mental health to do so?

I also understand he has CCTV inside and outside the property and often tapes interactions with others. He also has a dog on the premises and frequently makes reference to the evidence he has gathered about the alleged wrongs done to him by police, neighbours and housing department; a full ring-binder folder was observed in his flat with this alleged evidence.

There were no significant concern regarding his mental state when recently assessed to require a more intrusive intervention, he was not deemed to be psychotic but some acknowledgement of a paranoid personality type with grandiose beliefs. He is reluctant to engage with mental health services as he does not believe he is mentally unwell and therefore does not wish to engage to explore possible treatment options. The plan following the assessment was for a referral to be made to the North Locality Community Team for further engagement to build rapport over a period of time to try and engage/encourage him for further assessments and/or support.

Regards, Debbie
