

CP1 Appears fairly settled. However seem a bit preoccupied with trying to prove he was wrongfully admitted.

CP2 Good dietary/fluid intake

Simon requested to speak with me . Had 1:1 with him to enable him ventilate his fears and anxieties. He complained about his admission as he feels it was unlawful for some of the mental health professionals who came to his house to assess him as he has already made a complaint about their attitudes and have recordings of the visits . He also informed me that there is nothing wrong with him to be in hospital and to take anti-psychotic medication. He has been told that he will be given injection if he refused his oral medication after he has been seen by the consultant. He just want to be discharge to continue with his business plan. After explaining to him about the reasons for his detention and the benefits of taking medication,also the longer he refused will prolong his stay in hospital. With a lot of reassurance he agreed comply with medication if the consultant asked him to do so.

Dr Mumford & Dr Mills

Conversation with Simons mother

Explained current treatment plan and mental state. Agreed Simon is taking the lorazepam however it has not made any notable change to his mental state.

Explained that the next stage is antipsychotic medications as was stated at our first meeting. Mum says that Simon will refuse to take these and she denies that he is delusional or paranoid.

Simon continues to decline his antipsychotics as he does not think he needs them.

We have explained the signs and symptoms that Simon is exhibiting warrants the use of antipsychotics to prevent further deterioration in his physical and mental health.

We have explained that if simon continues to refuse tablets the next stage would be an injection.

Simons mum asked about when or if he will be moved to another ward, we explained that this depends on simons progress and how long it takes to make a more full assessment of his needs.

Simons mum was concerned with the lack of activities on the ward and she feels this is contributing to his bad health, she says the only time there was an activity on the ward was when the solicitor on the ward and she felt these two things were linked.
