

Then I used the search tool to enter custom dates. I had the dates as they were in the application for the ASBO order.

Now we add the date time line we are looking for in the custom fields, you are better to start with a wider date line then you need and see the results and you can shorten the date line as needed from the results you get back.

It is better to start to look for News data and social media URLs as in the application the police submitted they said in a statement about social media.

Signed ..... *L. Cordell* ..... Witnessed By .....
