

On the 07/05/2014 again my mother was given the all clear by her oncologist.

But my mother's health was getting worse; her GP could not understand why she had not had the date from her scan. So re sent off this time to Chase Farm Hospital hoping it would come faster. during the week of the 02/06/2014 she had her 4 weekly blood test due to her being on Clozapine, on this check up Jenny hunt noticed my mothers heart was faster then it should be so gave her the form to get a heart trace done at chase farm hospital. We had booked this to be done on the 09/06/2014 after we had seen her GP. But around the 06/06/2014 we had noticed my mother had a yellowing to her skin. At this stage my mother was really not feeling very well. I did take her for around 2 hours on the 07/06/2014 to Dwayne Edwards leaving party as she did not want to miss it as she would not see him again for around a year as he was leaving to travel the world. On the 09/06/2014 we went to her GP appointment we still had not had a date for her scan, and her GP was not happy about this, I told her again about the colour of my mothers urine but tests she had done had all shown up clear for infection on her urine over the past months, and that we had also noticed yellowing to her skin and about the weigh lose. And that we were going to chase farm that afternoon to have her heart test done. She asked if we could get a full blood tests done that afternoon which I said that would not be a problem.

I took my mother to the hospital and she had the tests done, the next day I got a call from my mothers GP asking us to come to the GPs at 10:20 on the 10/06/2014 that my mothers blood tests had come back grossly abnormal, I asked what this meant and was told that after she saw the doctor she would most likely need to go to the hospital. i said i would be there the next day with my mother. on the 10/06/2014 we went to the see her GP and they wrote a letter and made a call to the North Middlesex Hospital to say we was coming there right away.

We got to A&E and they done more blood test and x-rays by the time this was all done and the test was back it was to late for them to do a CT. they wanted to keep my mother in hospital, but she really did not like hospitals so it was agreed to allow her to come home and for us to be at the hospital at 09:00 on the 11/06/2014 to have the CT done we was told we would be at the hospital all day as they wanted the results of the CT before we left the doctors was still saying it could be her gallbladder but her liver was very enlarged which could be due to the gallbladder.
