Treatment on Referral: No

TREATMENT PLAN & ESTIMATE	Revision No.	1
--------------------------------------	---------------------	----------

What the NHS will provide The NHS provides all the treatment necessary to secure and maintain your oral health. There are some treatments (mainly cosmetic) that are not normally available under the NHS and you may choose to have these provided privately. You may also choose to have some treatment provided privately as an alternative to NHS treatment. The dentist will discuss these options with you so that you can make an informed choice.

Emergency Arrangements Replacements free of charge Whenever possible please contact us about urgent treatment during normal surgery hours. If you need to be seen the same day, please get in touch as early in the day as possible. If an emergency arises out of hours, please telephone the Primary Care Trust for advice if you are 18 or over and a fitting, root (filling, veneer, inlay or crown provided by me under the NHS within the last 12 months has to be replaced, you will not be charged if you return to me, unless: -
The treatment was temporary, or it was provided against my advice; or the replacement is necessary because of accident; or a referent Yeatmen is necessary because a satisfactory replacement is not possible
This NHS cover does not apply to any private treatment you may have.

Dental treatment charges I want you to undertake the treatment being offered and any charge which may apply. Below is a treatment plan and estimate of the cost. Within 2 months of completion of the course of treatment below, so if you require further NHS treatment in either the same or lower charge (bare), will not normally need to pay again.
Please ask if you do not understand this or need any further information.

Treatment on referral Paying for NHS treatment With your agreement, it may be necessary to refer you to another dentist under NHS arrangements, for part of your course of NHS dental treatment where this happens you will not be asked to pay a further charge for your NHS dental treatment: only one charge will be made by your referring dentist, as outlined below.
Patients aged 18 and over normally pay charges for NHS treatment. There is NO CHARGE if you are:
* Pregnant or have had a child in the last 12 months *if you are aged 18 and in full time education
* if you or your partner are named on a current HC2 NHS charges certificate
* if you or your partner are named on a valid NHS tax credit exemption certificate
* if you or your partner receive Income Support, Income-based Jobseeker's Allowance or Pension Credit Guarantee Credit
If you are not in any of these groups, but have a low income, you may still be able to get help with NHS charges. You can get a claim form HC1 with any Social Security office. Please Note: The following benefits, on their own, do not entitle you to help with health costs: Incapacity Benefit, Disability Living Allowance, Pension Credit Savings Credit and Contribution based Jobseekers Allowance.
If you have to cancel an appointment, please give as much notice as possible in order that it may be offered to someone else. If you miss appointments I may be unable to provide further treatment.
Taking good care of your teeth is important. Come and see me regularly for check-ups and advice. Some people need to see their dentist more often than others and I shall advise you when to return next.

Cancelling Appointments Regular care
