

27/07/2014 Millmarsh Lane Enfield Emails for this one with information and location. Also, this was not outdoors like the police are trying to say and I can prove this 09 to 10 Aug 2014 Millmarsh Lane Enfield the full event page is 108 pages. Also, this was not outdoors like the police are trying to say and I can prove this, also the police must have known there were squatters there due to the party on the 27/07/2014

Just say I got information a lot of information to each event they say Simon set up. But Josey you need to under the information and how it works I am very good at computers and it even took me a little while to work out how these people set these pages up and what

they are doing with the event pages. So just saying you will print them off is not going to be enough as you are going to have hundreds of pages that will need tagging. You need to see the information and understand t to be able to lay this out how it will need laying out for people to understand it. and how I was able to find it which I started when this case started, and have been saying I had it and the event pages but nothing was done, now some pages have been deleted, but we all know the police can get them don't we.

I even got events to date that these people are still setting up and the po iced are giving green lights to them which mean the police are allowing these parties to go ahead. These parties are in fact still going on every week.

Also, Josey the paper works the police served really does need time to go over it there is times that are off so many things that are wrong here.

The CADs well sorry but the police are trying it on with these they really are and something needs to be done about how they have blacked so much out. But I need to show you for you to understand. And please tell me why a grid ref would need to be blacked out?

But there is a lot of work with the police papers that needs to be gone over which was not done for the trial and Josey this will take time.

That last statement you missed in your email from the office in charge of the case needs to be dealt with also it was too late when we found out about it the day before the trail, and that being in Val Tanner from the public order unit at Scotland Yard, but I need to say in a statement what she said to me on the phone as it doesn't work out with what the police officer said in that statement.

And also, the phone ca l that DS Chapman from the public order unit at Scotland Yard.

The pubic order unit at Scotland Yard know a lot more Josey and they know it and they are allowing Simon to be blamed for this knowing he never done it that is wrong Josey it really is. was really funny how the office in charge of this case deleted the email he sent to the public order unit why would he have done this why would he have not taken a statement from Val Tanner?

Simon did do a lot of this with me right from the start when this started but Michael kept saying that does not matter, But Josey t does matter I did not understand how a civil case worked until the end at trial I did ask but it was not explained to me or Simon.

Hi Josey

Can someone please tell me what is going on, Josey I know you are busy and have a very large case load but time after time I have been told you will deal with things then I get nothing sent to me, but if you have not got the time can you not ask someone in the office to get the case files ready so I can get them I need to know what has been done.

Can you also please forward me the email that you sent to the po iced office in Essex so I can see what has been asked for him to write in his statement or has this not been done?

And also, the emails to the court and have you had any update to the legal aid.
