CHAPTER 888

They wanted me to lose more than just my finger:-

I personally and rightfully understand I had my first true assessment 72 hours later on the 17/08/2016 when I saw two true doctors face to face for the first time to even have truly got assessed, my mother and uncle was also present at this meeting.

While at the police station and being held as a detainee on the 14/08/2016 right up until the 16/08/2016, I had no Health or Mental Health issues.

In St Ann's Hospital I was in full good Health right up and till the 17/08/2016, when I went to use the hospital toilet as I walked in to use the toilet I slipped on the wet floor and fell forward causing both of my small index fingers to snap forward, this caused me a large amount of pain.

The toilet got left to be in a foul, sort of manner since I had arrived at the hospital and had clearly not being well maintained all the days I got held against my free will as a patient, as to them was large amounts of human waste otherwise known as urine around the floor and on the toilet seat most days.

On the 17th/08/2016 I clearly remember there being no warning safety signs up in place outside of the toilet on any of the days of my stay, this also include no form of maintenance.

I got upset because of the lack of warning was careless on the hospital's behalf, as I or any other person walked into the toilet room, as the hospital did not prior warn any person of such fault or lack of schedules or upkeep of them schedules such as a sanitary policy being managed to an optimum level's of services.

When noticing the damage that got caused to both of my fingers on both separate hands, I worried with concern as for the needs that I have for them. I care for my hands as they provide my abilities to earn a living.

Once I realized what had happened to me and the cause of me to slip I then got up and went straight to the staff room and reported the incident, I asked for it to get drafted into the Hospitals accident and report book and to have the Emergency medical provisions that I required, it did get explained to me that I will have to get the staff doctors to deal with the issue the next day to my pain and upset.

I was in a huge amount of pain with the injuries to my fingers that I had received while being detained at St Ann's hospital and could not receive the
