Hi Darren

The generator with no fuel and an electrician will be £380, this will be due to me not taking a deposit that is why i want my own electrician on site.

if you want to hire the generator without an electrician then a deposit would need to be paid, this would be given back once my electrician confirms the generator is in the same state as it was before the event.

We have already given a 50% discount on the price for this event.

Many Thanks

Simon

Hello Simon,

I'm sorry but we won't be able to use the bouncy castles for the Town Show as the organisers have given the all the inflatable concessions to one company.. thanks for your time on this..

We still want to use your spaceball.

Ref the generator for 2nd Nov. We would be interested in a dry hire for the day. We have a team of electricians on site doing the sound, light and laser show. We need to keep the cost down. We would also be able to supply the fuel ourselves, we run our other generators on red diesel. Please let me know if you can supply the genny on this basis and what the dry hire price would be..

Many thanks

Darren Leonard

Hi Darren

sorry for the late reply thank you for the email as we talked the cost for the Space Ball for the event for both days.
