

particular beliefs, which may lead to him having differences in opinion with others, which may impact on relationships with others; particularly those in positions of authority. His mental health/psychological state therefore remains fragile, however the risk is not such that he can be forced to engage with services.

He was offered follow-up by mental health services in the community to which he declined, although agreed the he can be contacted by nurses' from the ward to check on progress following discharge. He has been allocated a care coordinator (Soohah Appadoo, North Locality Team – 0208 379 4142) who will continue to try to engage him to build a relationship. SC describes his main presenting need to be that of his relationship with particular neighbours within his block, whom he believes to be intentionally causing him a nuisance by way of making noise, and reports feeling disbelieved and unfairly treated by the housing department and police. He therefore wants to be moved from his current accommodation.

His mother approached the ward Consultant for a supporting letter to provide to housing for a 2-bedroom property citing she is his main carer. As there is no evidence to suggest SC requires to be looked after due to having care needs requiring a live-in carer her request was declined, she was advised to suggest housing put their request in writing should this be housing's request. Mental Health would support relocation to alternative accommodation to reduce further tensions between the residents within the block.

Hi mother advised that SC has/or is in the possess of eviction, and that he was discharged from hospital with no support which does not seem to be the case. Support has been offered which has been declined, and will continue to be offered to assist in managing the current situation or avoid and/or mitigation a situation of eviction.
