

Some clear inaccuracies contained in my ongoing case lead to incorrect time stamps relating towards Emergency 999 calls contained within the Met Polices and applicants bundle as follows.

CAD	NUM	DATE	TIME	PAGE
CAD 999 call	2637	07/06/2014	08:18	Page 191 to 195
CAD 999 call	2672	07/06/2014	08:16	Page 196 to 198
CAD 999 call	3005	07/06/2014	09:22	Page 203 to 205
CAD 999 call	3037	07/06/2014	09:20	Page 179 to 183
CAD 999 call	10481	07/06/2014	22:47	Page 233 to 237
CAD 999 call	10506	07/06/2014	22:44	Page 238 to 241

Please note every day the met police call centre starts at CAD 01 and goes up to the average of 10,742 to 15,000 callers per day the clock is reset to 01 each day at 00:00 hours.

(We can tell this by the number of CAD incident numbers supplied, within the applicants ASBO bundle supporting the evidence supplied, for a stand alone ASBO order to be gained against Mr. Simon Cordell.

On the average the Met police call centre will receive on the average of 300 callers per hour as marked and time stamped below.

Every half hour 150 calls are made to the emergency 999 call centre on the average

Every 15 minutes is 75 callers on average-

Every 7 half minutes is 33 callers on average-

And 3 half minutes 17 callers on average.

Please take note to (CAD number / Incident Number 10481 7th June 14) this is the 10,481 Met police call of the 7th June 2014 time stamped 22:47 hours.

So it is incorrect for (CAD 10506 7th June 14) externally inputted 25 calls later, to have an earlier time stamp of the 7th June 2014 at 22:44 hours.

17.1.2 Dr Rosemary Mills Report:

The report states in the past these persecutory ideas have also focused on family members and neighbours this information is also not correct.

17.2 Dr Rosemary Mills Report:

The report states: Mr Simon Cordell's mental order is currently of a nature or degree to justify ongoing detention in hospital.

I Mr Simon Cordell disputes this not to be correct, since I have been realised after the tribunal and spending time in hospital as a voluntary patient before the doctors discharged me the day after the tribunal, I have settled in at home quite well and my family and friends are happy with me as well.

In Regards towards Opinions & Recommendations Chapter 17.2.1, Pages 8 of Rosemary Mills Report:

I disagree that I have shown any signs of psychotic disorder symptoms and believe I should not be diagnosed with such claims. Over the past two years I have been assessed as to be well and I have never been talk to in regards to such problems by any doctor until my assessment at St Ann's hospital, to have been able to accept any treatment, to which I have now complied with and take the tablets which do make me suffer from bad side affects.
