

standard of medical care I would have normally received if I could have attended on my own accord to an emergency hospital that would have also had available surgeons with an x-ray machine, that I would have visited if not being held against my will.

Now, because of this accident I can not use my right finger anymore, because of this neglect by professionals inclusive of deceitful lies made by Carron Dunno, I will agree as I believe anyone else's will who pays an interest into the true facts that I get upset within the real events of occurrences of what I find myself being accused of and have suffered through I therefore believe strongly I have the right to want legal action and support of my local council Enfield and any other official governing body in resolving the problems at least in my favour.

In further regards to my welfare and eradication, while in detention at the hospital all I wanted was the medical assistance I urgently needed and wanted and also to know why I got sectioned with a full understanding to why and under what grounds I suffered the torture of events, a clear breach of my human rights article three, as no person should get placed under the circumstance I got presented with especially under the same conditions, to strengthen the reason why this should not of happened at any point of time a risk to myself or any other person and I believe under section 2 you need to be a risk to yourself or others.

I kept asking questions such as in this document, with no fair response.

On the 17th August 2016 I had still been getting Illegal detained, up and till the first official 72 hour meeting that got held, what was the first true assessment with any two doctor face to face and this took place at St Ann's Hospital not the police station.

I had broken my fingers on the hospitals site and no nurse or doctor would take me to the outside hospital for an x-ray.

This happened in St Ann's toilets while under their duty of care from the 16th August 2016 at around 6:30pm, when after the incident staff would not update the incident report book when I asked.

My mother attended the first true meeting; 72 hours after I had started to get detained, with my uncle also being present;

When a woman who is a care worker; had to leave the meeting taking place at the hospital, this got done due to their already being an official complaint put in to place in regard to her and others attending my home address in February.

The meeting went ahead without the Mental Health worker being present and no matter what me my mother and my uncle explained the doctors had planned to keep me.
