Your PHP setting **max_file_uploads** is currently set to **20**. We recommend to set this value at least to **100** to avoid any issue with our plugin. **(i fixed this)**

Your PHP setting **post_max_size** is currently set to **64M**. We recommend to set this value at least to **128M** to avoid any issue with our plugin. **(i fixed this)**

Your PHP setting **upload_max_filesize** is currently set to **64M**. We recommend to set this value at least to **128M** to avoid any issue with our plugin. **(i fixed this)**

this will need to be done by farjat or server side.

Your PHP setting **max_input_vars** is currently set to **1000**. We recommend to set this value at least to **5000** to avoid any issue with our plugin.
