Yours sincerely,

Mary Graham
Appeals Clerk
List Office

NOTE:

Once an appeal has been allocated a hearing date it will **NOT** be changed, save for the most exceptional reasons.

It is, therefore, essential that all dates to avoid are provided to the court by the date specified above.

Any subsequent application to move a fixture date will have to be listed before a judge, which does not automatically mean your application will be granted and may lead to wasted costs.

It has also just been noted that the court passed a driving disqualification until test passed was issued for this case which we have only just been made aware of by the paper work that has been served and seeing the Memorandum of ENTRY if this had been known then I would have asked that this be suspended until the appeal was heard in my appeal application

We was only told by the court that 3 points and a fine had been given by the judge and also the letter the court sent shows this Please see letter included within this paperwork

Can we still ask that the driving disqualification be suspended until the appeal is heard
