The truth what can I say apart from, well me and my partner were good at tracking our friends down together, and we both done this as a team in a superb time frame.
Upset as most people would be I requested the stock back and payment for the first package and what had gotten used out of the extra taken from my home.
I admit that by this time I got a lot more upset than needed and found my self in the middle of the carnival with my partner and a load of stock.
In looking around for a form of carriage I noticed a wheelie dust bin that had been laying on its side and decided to check the condition that it had got left in.
It had got left clean and it was available for our use.
We filled up and covered the lid the best that we could.
Travelling back towards the car, we started to enjoy the carnival a bit but still with the concern of carry a black wheelie bin around the streets, I can not remember who noticed them first I bet her; but anyway we bumped into some friends of ours,
I can't remember what happened for a little while because when I looked at my watch the time had disappeared.
The streets were slowly starting to empty and I still had a big black wheelie bin with me, so I see some officers that I had met before and approached them and asked what the best way back to the car was.
After working everything out with the police I turned around a t the group of friends waiting and it had grown.
I knew that it would be best to get out of there and head back home with my partner and that is what we did.
Now this day is also being wrongfully used in the Anti Social Behaviour Order Application case against me and I question why for the following reasons?
