

On the 02/02/2016 is when they used the section 135 warrant to come to my home with police. On this date I was at home and had no visit of the medical team, as for this was the date when the section 135 of the Mental Health Act was applied for a court, as I have the true paper work served and the minutes for the meeting on CD.

### **5.9 Dr Rosemary Mills Report:**

I was contacted by the Mental health team and explained to them in a phone conversation that I had spoken to my civil partner and we both that together after the on goings in the meeting that we will both monitor any issues of concern about my Mental health, along side the rest of my family and friends and if ever any problems arise we will contact the Mental health team as of date.

There has been no true problems other than the false allegation of threats to kill to date which I have proof of not leaving my home on the date in question on CD.

## **6 Past Medical History**

### **Dr Rosemary Mills Report:**

6.2. While at the police station being held as a detainee on the 14/08/2016 until the 16/08/2016, I had no health issues this does include the 16/08/2016, while being detained at St Ann's Hospital.

In St Ann's Hospital I was in full good Health right up and till the 17/08/2016, when I went to use the hospital toilet as I walked in to use the toilet I slipped on the wet floor and fell forward causing both of my small index fingers to snap forward, this caused me a large amount of pain.

The toilet was left in a foul manner before I had arrived and had clearly not been maintained all day, as for there was large amounts of human waste otherwise known as urine around the floor and on the toilet seat, I clearly remember there being no safety signs up as I walked into the room and once I was inside so for any person to have been prior warned of such faults.

On noticing the damage caused to both my fingers on both separate hands I worried with concern as for the need I have for them. I care for my hands as they provide my abilities to earn a living. I then got up and went straight to the staff room and reported the incident, I asked for it to be drafted into the Hospitals accident and report book and to have the Emergency medical provisions that I required, it was explained to myself that I will have to get the staff doctors to deal with the issue the next day.

On the 18/08/2016, I again asked for the incident report book to be updated, so as for any person to be able to explain the damage caused to my fingers, while I was under section 2 of the Mental health act 1983 while I was being detained at St Ann's hospital.

When at around 11:00am I showed a doctor, the reason I was given the opportunity to show a doctor was because of he had asked me to take part in routine checks, such as checking my heart rate, I showed the doctor the damage to both my fingers, I also expanded to the doctor the pain I was in and therefore suffering and that I required emergency assistance such as an x ray.

It was then explained to me that even low my left finger looked snapped they believed it to be swollen, I knew this not to be fluid in my left finger but for it to be part of my bone snapped, it was also explained by the doctor to me, that my right finger will heal and gain movement over time, I challenged this to the maximum extent I could at the time.

When Comparing the snap to both of my small index fingers, I class my right finger to be a lot worse as for the reason being that I have lost full control of it and can no longer use it, not having any use of my right small finger has a large effect on my daily life for incidence I can no longer write with a pen as I once could and I have issues with picking any thing up as I once could before.
