17 Steps to Get Your Ideas in Shape for the Marathon of Writing.

Have you checked out the ProWritingAid blog yet?

Our blog is chock-full of information and techniques to help you become a better writer. Our posts are grouped into five main categories:

1) [The Writing Process](#)

Writing a novel? Find a wealth of practical information to help you develop your narrative, create compelling characters, build your world, and much more.

2) [Grammar Rules](#)

Have a grammar question for us? Here we aim to offer clear, simple explanations for some of the more difficult grammatical topics like “What is a dangling modifier?”, “How do I punctuate dialogue?” or “Why can’t you split an infinitive?”. Once you’re confident on what the rules are, you’ll know exactly how and when to break them.

3) [Blogging and Content Writing](#)

Do you have a blog? Or do you write for one? These posts contain a boatload of useful tools and techniques to help you create captivating content, increase your productivity, build your following, and stay safe online.

4) [Writing Apps and Technology](#)

We love writing technology. We each have certain apps that we use at different points in our writing process: brainstorming, planning, time-lining, note-taking, writing, editing, formatting, designing, marketing, publishing and more. There are so many great apps out there and we are constantly on the lookout for the best (and worst) to test out.
